(adds shine and reflection)

Toner (tones for subtlety) 40

Paint ONs

(French highlighting technique, colours are painted on with boards to achieve subtly highlights & low lights)

Full head 150

Half Head 130

Partial 100

Balayage/ Ombre's from 99

Balayage hair a lightening agent is painted on using a brush, darker at the base lighter on the ends achieving an ultra natural effect by mimicking nature's way of lightening hair.

Ombre hair refers to the gradual lightening of the hair. Fading from darker colour near the roots to lighter on the ends more of a dip dye effect.

Straightening Treatments

Brazilian Keratin Reconstruction from 300

(smoothing treatment)

Professional smoothing treatment improves the condition of the hair whilst smoothing the cuticle & eliminating frizz while providing protection. Lasts up to 3 months, so your natural texture gradually returns. After the product is applied, the hair is blow-dried, then flat ironed then followed by a deep conditioning mask. The minute you leave the salon you can wash your hair, wear a

pony tail, use clips & pins... It will be straighter, smooth, frizz Free making it easier for you to manage. It cuts your blow drying time in half.

Japanese permanent Ultra-Straightening from 300

(thermal reconditioning)

The hair is saturated with a solution containing a ingredient ,that breaks the bonds that gives each strand its shape; it is then rinsed, blow-dried, and meticulously flat-ironed. Once a neutralizer is applied, the hair is locked into this new, straight configuration. The process can take up to eight hours the first time (depending on length and thickness); touch-ups require three to four hours. For three days after the treatment, you can't get your hair wet or do anything "kink" inducing (eg. wear a ponytail), and while your hair will now be sleek and shiny (even after air-drying), you're left with one styling option: dead-straight.

Hair Relaxer

A relaxer can soften coarse, tight curls; it uses a solution containing "compounds" that break various bonds in the hair. The solution is left on for up to 20 minutes, rinsed, then neutralized.

L'oreal X-tenso Moisturist

Transforms rebellious, curly or frizzy hair to smooth, beautifully silky and shinny hair for up to 60 Days
